Company Profile

Our Company specializing in the production of drinks and food packing materials, design of membrane material, blowing film, printing manufacture and provide corresponding technical services, has the most advanced domestic blown film, printing and crossing their machine and other equipment and perfect testing equipment.

The main products are: **PE shrink film, PVC shrink Label, PET shrink label, OPS shrink label, BOPP label, OPP label , Self -adhesive label and other packaging materials.** Products are widely used in water, juice, beverage, food, cosmetics, medicine, daily chemical product and other industries product outer packing.

Our company have professional design team also supply packing solutions for customers' products and our business is in South America,North America,Europe,Southeast Asia,Africa, middle east etc.

Warmly welcome to visit us !

What Production Machines We Have?

Printing Machine

Introduction of Printing Machine

We have two gravure printing machines and two offset Printing Machines which they are all famous brand in China. Gravure printing machines are fast speed to print 200 meters per minute.

The machines can print 10 colors satisfied with any film products designs like PVC/PET/ OPS shrink label, BOPP/OPP label, PE film. food sachet, food packing bag. Offset printing machine speed is 100 meters per minute, they can print any kind of adhesive label.

The label is usually for wine/beer bottle, essential oil bottle, Premium water bottle, Daily chemical bottle, cosmetic bottle.

What Production Machines We Have?

2 Sets

Gravure Printing Machine

It's for printing PVC label, PET label, OPS label, BOPP label, OPP label and some packing film.

3 Sets

Slitting Machine

It's for cutting big roll film to small roll.

1 Sets

Inspection Machine

It's for inspecting every label printing quality.

5 Sets

Folding Label Machine

It's for making film to layflat to be sleeve labels.

2 Sets

Sticker Printing Machine

It's for printing adhesive label, IML label and advertisement paper.

7 Sets

Caculation Machine

It's for checking every label printing quality and caculate how many meters for one roll of label.

6 Sets

Die cutting Machine

It's for cutting adhesive label to any shape and size.

PVC Shrink Label

PVC label is use for various bottleneck label, gum label which is suitable for label sleeving machine. Usage: different kinds of juice drinks, tea, soft drinks, mineral water, milk products, flavouring and cosmetics, etc.

Size: 20-700mm

Thickness: 0.025-0.08mm

Printing method: gravure printing

Shrinkage: widthway: 45%-50% lengthway: 2%

BOPP/OPP Pearly Membrane / OPP Composite Label

OPP label is use for various labelling which is suitable for hot melt labeling machine.

Usage:widely used in wine,soft drinks,mineral water,cosmetics,foods ,etc.

OPP label is degradable environmental label which is state-certified.It is divided into BOPP label,Pearlised film opp and composite label.

Size: 20-1000mm Thickness:0.018-0.07mm Printing method:both table printing

BOPP

Pearl Film OPP

OPP composite labels :BOPP composite BOPP, BOPP composite pearl film, BOPP composite CPP,
BOPP composite aluminized film and PE composite film

OPS Shrink Label / PET Shrink Label

Used for shrink film label, is an environmentally friendly and easily degradable material, high shrinkage rate, high transparent section performance and widely used in coconut water, fruit drinks, cocktails, beer and other products, PET material horizontal shrinkage rate can reach 73%-85%, can meet the special requirements of different products.

USES: widely used in high shrinkage rate requirements of coconut juice, cocktail, beer, all kinds of fruit drinks such as outer packing.

Thickness: 0.035 mm to 0.05 mm

Shrinkage:horizontal 70%-70%,vertical 0-3%

PE Shrink Packaging Film/ Printing Film

Abrasive resistance of PE film is good. It is suitable for different film machine.
 Usage: mineral water, wine, soft drink, cans products, dairy products, etc.
 According to customers' aspect of requirement, we can print PE film to satisfied them.
 Size: 50-1700mm
 Thickness: 0.03-0.12mm
 Printing method: both table printing and in printing
 Shrinkage: widthway 10-15% lengthway 70-75%

Adhesive Label In Mould Label (IML)

Adhesive labels are designed for daily chemical bottle packaging, offering a range of materials, adhesives, and customization options to meet the specific needs of your product labeling. These labels are not only functional but also enhance the visual appeal of your chemical products.

Packing Food Film/ Packing bag

The Design Team

We have a professional brand design team, providing customers with mutual respect trustworthy design services. In-depth analysis of enterprise needs, will experience, creative design, image, brand communication strategy execution four fusion, customized design scheme for the enterprise.
